EDAC Inc, a global leader of interconnect solutions, is pleased to announce our manufacturing facility in Dongguan China is now certified to IATF 16949.

IATF 16949 is an internationally recognized ISO/TS 16949 specification standard aimed at the development of a quality management system in the automotive industry. It requires strict adherence to quality, continuous improvement, defect prevention, and waste reduction including corrective actions to drive consistency in the automotive supply chain and production.

“This is an important milestone for EDAC as we extend our interconnect manufacturing and engineering services into the automotive sector, while strengthening EDAC’s breadth of product” said Kobie Samuels, Director of Business Development, EDAC Americas and Asia. “This certification is a further demonstration of EDAC’s ongoing commitment to make investments to achieve market-leading quality and regulatory compliance for our global automotive customers.”

About EDAC:

Established in 1966, EDAC soon became a world leader in providing connectors for Card Edge and Rack & Panel applications. Since then, we have expanded our product offering to include one of the widest ranges of interconnect solutions in the world. Products include D-Sub, RJ45, USB & Firewire, Waterproof, PLCC Sockets, Pin Headers, Cable Assemblies and Custom Solutions. Our innovation guides us into new customer opportunities as we challenge the status quo. This belief resonates throughout the organization and results in exceptional quality service globally.
