On January 6, 2021, the U.S. Environmental Protection Agency (EPA) issued five final rules under Section 6(h) of the Toxic Substances Control Act (TSCA) to reduce exposures to certain persistent, bioaccumulative, and toxic (PBT) chemicals. These chemicals are known to accumulate in the environment and pose potential risks to human health and ecosystems. Further details can be found here:

EDAC has conducted a comprehensive analysis of its product offers to ensure compliance with these new regulations. The analysis concludes that the vast majority of EDAC parts comply with the rules issued under Section 6(h) of TSCA. Customers are encouraged to review their specific use of EDAC products to ensure compliance with applicable regulations regarding PBT chemicals.
